## Office of Interagency Care and Benefits Coordination

### MyVA Community Model

#### What is a MyVA Community?

VA is working to engage with existing community Veterans groups to improve outcomes for Service members, Veterans and their families. In areas where there are no existing community Veterans groups, VA is facilitating the development of Veteran-focused community networks, using a model we call **MyVA Communities**.

The **MyVA Communities** model enables Veteran advocates, service providers, Veterans, and stakeholders to have a voice in identifying their community goals and work to improve service delivery for Veterans, Service members, and their families.

#### MyVA Community Objectives

To bring together local resources and advocates to improve outcomes for Veterans, transitioning Service members, and their families.

To enable Veterans to easily identify and reach resources available to them, voice their opinions, and provide valuable input.

To resolve concerns at the local level and improve service delivery methods.
